## PREFACE.

---

The superb collection of European silver coins contained in this sale is the property of and sold by order of one of the most prominent numismatists in this country, who is relinquishing this series after many years of assiduous collecting. He was favorably known as a liberal purchaser at both private and public sale, desiring the finest specimens obtainable. How remarkably successful he has been along these lines may be judged by perusal of this catalogue. Suffice it to state that such a collection has rarely, if ever, been offered for competition in this country. From past experience we have thought best to apply the term "Crown" to nearly all the coins of size or weight of a dollar—many of them are of greater diameter than a U. S. dollar.

The few numismatic books are of a high standard.

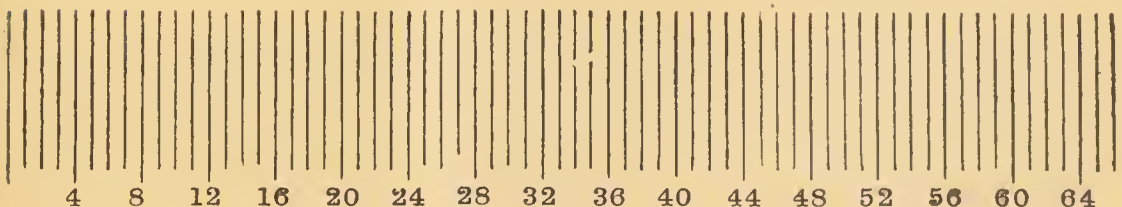

United States and Canadian coins and medals in latter part of the catalogue.

Catalogues with what each lot sold for marked in ink will be sold after sale for 75c, and please remit with order for same. Every coin is guaranteed genuine, and this holds good indefinitely. We trust collectors will avail themselves of this great opportunity to purchase these interesting coins and send in bids as soon as possible after receipt of the catalogue.

Very respectfully,

S. H. & H. CHAPMAN, Numismatists,  
1348 Pine Street, Philadelphia.
